

STL AIRFIELD SAFETY ALERT

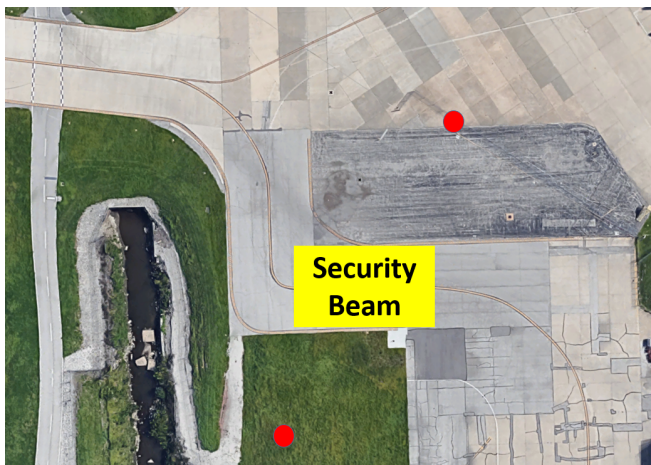

New Beam Detector: American Airlines Maintenance Ramp May 6, 2020

ATTENTION PILOTS & AIRFIELD USERS: A new security beam has been installed at Airport Security Gate 21S by the American Airlines Maintenance Ramp.

Procedures

- All users are required to swipe their badge on the card reader before any aircraft or vehicle exits the ramp.
- Entering the ramp from the airfield / vehicle service road will not set off the alarm.
