Rhonda Hamm-Niebruegge
Director

Francis G. Slay
Mayor
City of St. Louis

June 11, 2014

Dear Tenant:

Effective November 1, 2014 the use of cellular telephones, texting and other electronic devices while driving anywhere in the Non-Movement area will be prohibited. This extends the existing ban for the Movement area (runways and taxiways) to the Airport's ramp and drive lanes.

The prohibition includes all cell phones and other electronic devices not directly related to operating a vehicle and/or servicing an aircraft. The Airport's regulation will be enforced, and violators and their employers will be subject to citation by the Airport Police Department. Upon notification of a violation, the Airport may initiate punitive action for the individual and/or the employer.

The Airport is initiating this new policy pursuant to new FAA mandates (Draft Advisory Circular 150/5210-20A and CertAlert 14-02), which are anticipated to go into effect this calendar year. For further information concerning the mandates, access the following FAA websites:

http://www.faa.gov/airports/airport_safety/certalerts/
and

http://www.faa.gov/airports/resources/draft_advisory_circulars/

Once the FAA has given final approval, the mandates will be published and distributed as part of the Airport Certification Manual.

As you pass along this new policy to your drivers, please remind them of all STL safety, security, and driving procedures.

Thank you for your adherence to this new policy. If you have any questions, please contact Airport SMS Coordinator Liz Smart at (314) 426-8094 or ecsmart@flystl.com.

Sincerely,

Rhonda Hamm- Niebruegge
Director of Airports
